Emerging Jobs

Agronomist

A green recovery will require more sustainable growing of domestic crops. Agronomists are experts in the science of soil management and will use cutting edge agri-tech to improve farming methods and the growing of crops.

Diagnostics Technician (light vehicle)

As we move to fully electric cars with more electronics than ever before, we will need a diagnostics technician to spot and correct faults.

Countryside Officer

With increasing interest and support for protecting and sustaining our natural habitats (i.e. Nature conservation) Countryside or Conservation officers will have important roles to play.

Epidemiologist

Life Sciences will offer lots of jobs in the future. Post Covid-19, will need more Epidemiologists to research the causes and effects of viruses and diseases as we return to our global society.

Artist

From video gaming, animation and virtual reality to packaging design, landscape design, fashion and advertising - a creative talent can be deployed in a wide range of careers.

Focus on Low Carbon
